February 1, 2011 --

USA Industries, Inc. has many different Heavy Duty Industrial Isolation plugs in all sizes and Pipe schedules to suit your requirements and specifications.

USA Industries' **Double Block & Bleed** is **1 plug with 2 Functions!**

The Double Block & Bleed has 2 separate sealing areas which enable positive isolation of internal piping, allowing you to safely perform your work.

In addition, the Double Block & Bleed plug has a Vent between the seals which enables you to **verify the seals' integrity AND** can allow you to **pressure test welds** by positioning the weld between the 2 seals.

- Large stock available
